

M38e Specialty Cart

Phlebotomy Workstation

The M38e Phlebotomy cart is a flexible, mobile workstation that keeps all of your blood draw supplies close at hand, and enables you to easily transport them throughout the facility. Multiple bin sizes and divider options provide ample storage and smart organization of phlebotomy supplies. The M38e Phlebotomy cart features ergonomic adjustments, easy maneuverability and an increased runtime for improved uptime performance.

Key Features

- Large work surface with raised edges and expandable surface feature
- Configurable to meet workflow needs
- Simple electronic height adjustment
- Slim profile for tight care settings and ease of mobility
